Yukon JackBucket for use on RC•30 All Surface Loader

Part Number:
RC•30: 0402-439

Description:

The Yukon JackBucket is versatile tool that can be used for prying, lifting, sifting, hauling, loading and more. Six individual tines form the bottom of the bucket and are bolted into position for easy removal. This attachment can be used as pallet forks or to move larger individual rocks or other odd shaped material. Tines are tapered at end for easier penetration.

Brief Specifications:

Height: 30 inches
Length: 48 inches
Width: 36.5 inches
Weight: 330 pounds
